RYAN JENNINGS
MINISTER TO STUDENTS

Bob Reich Construction Co.
8340 Meadow Road #236
Dallas, Texas 76231

Dear Bob,

The building of a new worship center is a challenging and demanding task for every one concerned. When we first began this process we prayed hard for the right construction company to help us build a facility that would take us into the new century. We interviewed several and asked for bids from four or five different companies. Nothing seemed to work out until we were able to meet with you upon the recommendation from our architect (a fine Christian gentleman). It is the conviction of our committee and myself that God led us to your company for this major project.

I am sure that I speak in behalf of the committee and the congregation when I say that we believe that the worship center you constructed for us is the will of our Lord. It is both functional and beautiful. To my knowledge the finished work complies with the approved building plans. You were very cooperative in making changes we felt were necessary as the work progressed. The one year guarantee has proved helpful as well.

Your regular meeting with the committee, the architect and your on-sight overseer helped us understand the process and to make changes we had not considered previously.

How very grateful we are for you, your work and the subcontractors you sent our way. We are extremely pleased with the building and site work that was required by the city. Thanks ever so much.

Sincerely yours,

Wallace Philpot
Pastor
