

TO WHO IT MAY CONCERN:

Re: Bob Reich Construction

We worked with Bob Reich Construction recently on a 3.2 million-dollar addition and renovation to Walnut Ridge Baptist Church in Mansfield, Texas. We are currently working with this firm on a 1.6 million-dollar project for Oak View Baptist Church in Irving, Texas. The Mansfield project was completed on time and the punch list was minimal at the end of the project. The Irving project is on the same track to be completed in a timely manner with quality construction.

Warranty and punch list and follow-up at Walnut Ridge has been completed in a professional, quality manner in a reasonable time frame.

I would be happy to recommend Bob Reich Construction for future projects. I believe their attention to detail and schedule makes them a good choice for projects you are considering.

Should you have any questions, or need additional information, please do not hesitate to let me know.

Sincerely,

ARB ARCHITECTS
