Re: Letter of recommendation

Gentlemen,

We, the congregation at Lord of Life Lutheran Church, express our gratitude and appreciation for the exceptional work in managing and constructing the education building known as phase 2. The courtesy and professionalism shown to us during construction was very evident as well as the importance of keeping the cost of the project within our budget. We are also extremely pleased with the final appearance of our new addition as indicated by the number of complements that are made by visitors and new members on a weekly basis. Bob Reich Construction is highly recommended and will definitely be considered for the next construction phase at Lord of Life.

Sincerely,

Scott Peters
Vice President
Chairman – Construction Task Force
